

SAFARI

DO'S & DON'TS

Welcome on board of the Ajabu Adventures Land Rover! You are about to embark on one of the most a thrilling and memorable experiences in a lifetime.

Whether this is your first time in Africa, or you are an experienced safari goer, please take a moment to read the below guidelines to get the most out of your safari adventure. And to help us to preserve the natural wonders for future generations.

Do not get out of the vehicle

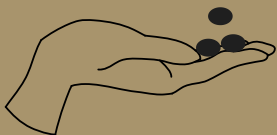

... unless your guide tells you it is okay to come out. Always be aware of your surroundings.

Keep your voice down

... when near wildlife. Do not call out to the animals or make sudden movements to attract their attention.

Do not feed the animals

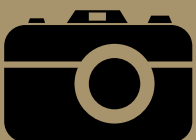

... they are wild animals and we would like them to stay that way.

Leave nothing but your footprint

... and take all your waste back with you. The African bush is a delicate ecosystem which can easily be damaged.

Do not take photos without asking

... be respectful to people and always ask their permission first.

Do ask questions

... to your guide. He will be more than happy to share his knowledge of the flora, fauna and culture and get to know you as a person too.

SAFARI

DO'S & DON'TS

Use your sustainable water bottle

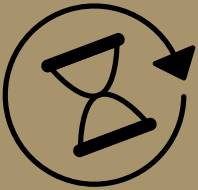

... and drink sufficient. In the car there is always a free refill to make sure that you stay well hydrated.

Do not take souvenirs

... such as flowers, vegetation or remainders of animals. They are part of nature and should remain there.

Be patient

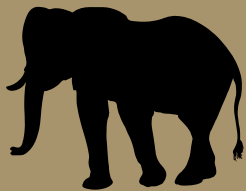

... and you might be surprised. Wildlife is unpredictable and therefore you will need sharp eyes and some luck.

No WiFi in the car

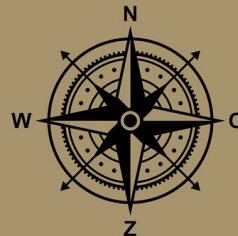

... because we want you to connect with nature, not internet.

Do not harass wild animals

... by overcrowding them with too many vehicles or coming too close. The animals always have right of way.

Your guide is the expert

... do not encourage him to things that are unethical or may impose a threat. The guide has always the final decision.

Now just sit back, relax
and enjoy the show!
